

	Monday (May 4)	Tuesday	Wednesday	Thursday	Friday	
08:45-09:00	Welcome coffee and introduction					
09:00-10:30	Introduction to complex variations of Hodge structures (Part 1)	Closed surface groups representations and the case of $SL(2,C)$ (Part 1)	Hodge groups: different points of view and classification (Part 1)	The Corlette--Simpson alternative (Part 1)	Holomorphic isomonodromic leaves of the joint moduli space of Higgs bundles (Part 1)	
10:30-11:00	<i>Coffee break</i>	<i>Coffee break</i>	<i>Coffee break</i>	<i>Coffee break</i>	<i>Coffee break</i>	
11:00-12:00	Introduction to complex variations of Hodge structures (Part 2)	Closed surface groups representations and the case of $SL(2,C)$ (Part 2)	Hodge groups: different points of view and classification (Part 2)	The Corlette--Simpson alternative (Part 2)	Holomorphic isomonodromic leaves of the joint moduli space of Higgs bundles (Part 2)	
12:00-14:00	<i>Lunch break</i>	<i>Lunch break</i>	<i>Lunch break</i>	<i>Lunch break</i>	<i>Lunch break</i>	
14:00-15:00	The moduli space of Higgs bundles over closed Riemann surfaces (Part 1)	Parabolic Higgs bundles and compact components of relative character varieties (Part 1)	<i>Free afternoon</i>	Research talk	Research talk	
15:00-15:30				<i>Coffee break</i>	<i>Coffee break</i>	
15:30-16:00	<i>Coffee break</i>	<i>Coffee break</i>		Research talk	Research talk	
16:00-16:30	The moduli space of Higgs bundles over closed Riemann surfaces (Part 2)	Parabolic Higgs bundles and compact components of relative character varieties (Part 2)				
16:30-17:00
